Hepatitis B and C: Management and Treatment Thierry Poynard

Chronic hepatitis B and C affect 520 million people worldwide, and are a major cause of chronic liver disease and of mortality, despite the efficacy of the vaccine. Hepatitis B and C: Management and Treatment second edition provides a practical explanation of the natural history and management of the disease, and examines the benefits of the most recent drugs, and their effects, whether used in isolation or as part of a combination therapy. This second edition expands the coverage of treatment of various difficult-to-treat patients and will be a welcome guide to the physician in both clinical decision-making and in explaining the benefits and side-effects to the patient.
