Recepteerkunde: Productzorg en bereiding van geneesmiddelen (Dutch Edition)

Recepteerkunde: Productzorg en bereiding van geneesmiddelen (Dutch Edition)

Recepteerkunde is compleet vernieuwd en helemaal bij de tijd. Van een vraag van de arts tot quality by design, van mortier tot autoclaaf, van ingangs-tot eindcontrole, van recept tot productdossier, van apotheek tot thuiszorg, het komt allemaal aan de orde. Zowel voor de specialist als voor de generalist is Recepteerkunde onmisbaar. Voor de apotheek was de kleinschalige bereiding vanouds de core business, tot steeds meer apotheken de bereiding gingen uitbesteden. Het klassieke bereiden uit grondstoffen is een specialisme geworden. Maar elke apotheek heeft te maken met productzorg: beschikbaarheid. Bewaren en bewerken van handelspreparaten. Ook voor toediening gereed maken (VTGM) gebeurt in elke apotheek, elke dag, met toewijding en kennis van zaken. Recepteerkunde is een naslagwerk voor iedereen die betrokken is bij de bereiding en aflevering van geneesmiddelen: openbare apothekers, ziekenhuisapothekers, industrieapothekers en apothekersassistenten. Tevens is het een leerboek voor studenten farmacie. Wie zelf bereidt uit grondstoffen op kleine of grote schaal, of handelspreparaten aanpast, kan niet zonder Recepteerkunde, maar ook zij die bereidingen van anderen afleveren op preparaten voor toediening gereed maken, vinden er noodzakelijke informatie.
