Larry Goes To Space Alan Black

Larry enjoyed raising cattle on his Kansas farm, until the aliens arrived. He couldn't help himself; he was going for a ride with aliens from outer space! The aliens wouldn't tell him where he was going, how long he would be gone, or if he was ever coming back, but a space trip sounded like more fun than beer and burgers at Benny's Been There and Done That Bar and Grill. He had to go. Larry's ride into deep space wasn't just a Sunday jaunt. This space-faring species was in danger of being wiped off the galactic map. They offered Larry a ride because his assistance was vital to their survival, but they were xenophobic to the point of barely tolerating Larry in the same room. He was willing to help, but what could he do? Could he live long enough to save himself? What skills did Larry have to save an alien species threatened with annihilation? Every time he asked them for information, they stonewalled him.
