An accessible resource for busy teachers, this informative book sets the stage for using technology effectively in the literacy classroom. The authors take the reader step by step through the ongoing cycle of planning, teaching, and assessment in a technology-rich environment. They demonstrate how to use the Internet and reading and writing software not only to teach core literacy skills, but also to help children develop new reading and communication competencies for the digital age. Vivid classroom examples illustrate specific strategies for explicit instruction, teacher modeling, think-alouds, and interactive demonstration. The book also offers tools and tips to support professional development, including reproducible materials for use by individual teachers or study groups.
