Managing Across Diverse Cultures in East Asia: Issues and challenges in a changing globalized world

Why 'Managing across diverse cultures in East Asia'? We re-examine in this book the link between culture and management across the region vis a vis the new economic, political and social landscape that has appeared over the last decade. We accordingly present a set of chapters on East Asian cultures, economies, societies and their management across the board, focusing on countries such as China, Japan, South Korea, as well as the Overseas Chinese enclaves of Hong Kong SAR, Macao and Taiwan. The contributors to this edited book are all specialists in their respective fields; they hail from a variety of universities and business schools across the world, located in a wide range of countries in the East and in the West. The chapters, we believe, reflect a balance between the past and present, theory and practice, as well as the general and the particular.
