Young Children's Creative Thinking Hiroko Fumoto, Sue Robson, Sue Greenfield, David J Hargreaves
The importance of promoting young children's creative thinking, and the social relationships which support it, is now seen as a vital element of good early childhood practice. The authors push forward our understanding of what young children's creative thinking is, and how it promotes young children's well-being. By drawing on research evidence, they examine key issues from the perspectives of the child, the parents or carers and early childhood practitioners, and make links between theory and practice.
