One of the leading casebooks in the field, **The Law of Debtors and Creditors** features forty problem sets with realistic questions a lawyer considers in confronting the statutory provisions for a bankruptcy case. Explanatory text throughout makes bankruptcy law accessible to students and easier to teach. The material is organized functionally--as a bankruptcy case would unfold--making the presentation logical and sensible. By separating consumer bankruptcy from business bankruptcy, professors can select the depth of coverage for each course.

The **Seventh Edition** produces expanded coverage of business bankruptcy topics such as corporate governance in bankruptcy and bankruptcy sales. Discussion of over a half-dozen recent Supreme Court cases on bankruptcy includes *Stern v. Marshall*. Adjustments to teaching approach to means test and other 2005 amendment topics reflect existing law and practice and help students learn.
