Thyroid Ultrasound and Ultrasound-Guided FNA Biopsy

Thyroid Ultrasound and Ultrasound-Guided FNA Biopsy

Over the past two decades ultrasound has undergone numerous advances in technology such as gray-scale imaging, real-time sonography, high resolution 7.5-10 MHz transducers, and color-flow Doppler. This makes ultrasound unsurpassed in its ability to provide very accurate images of the thyroid gland quickly, inexpensively, and safely. However, in spite of these advances, ultrasound remains drastically underutilized by endocrinologists. In part, this is due to a lack of understanding of the ways in which ultrasound can aid in the diagnosis of various thyroid conditions and to a lack of experience in the ultrasound technique by the clinician.

Thyroid Ultrasound and Ultrasound-Guided FNA Biopsy presents a 'hands-on' approach to using ultrasound in the clinical evaluation and management of thyroid disease. It is written specifically for the clinician and discusses the subtleties one needs to be aware of in using this technique. Particular attention is paid to using ultrasound in conjunction with FNA biopsy. New technology such as three-dimensional ultrasound, color-flow Doppler, and percutaneous injection of cysts and nodules are discussed and demonstrated. Numerous ultrasound examples are used to show the interactions between ultrasound and tissue characteristics and explain their clinical significance. Also presented is the work of several groups of investigators worldwide who have explored new applications of ultrasound, that has led to novel techniques that are proving clinically useful.

From reader reviews:

Dawn Dustin:

Do you have favorite book? Should you have, what is your favorite's book? Book is very important thing for us to understand everything in the world. Each reserve has different aim or maybe goal; it means that guide has different type. Some people truly feel enjoy to spend their the perfect time to read a book. They are reading whatever they acquire because their hobby will be reading a book. How about the person who don't like looking at a book? Sometime, individual feel need book if they found difficult problem as well as exercise. Well, probably you will need this Thyroid Ultrasound and Ultrasound-Guided FNA Biopsy.

Marion Richey:

Book will be written, printed, or outlined for everything. You can realize everything you want by a reserve. Book has a different type. As you may know that book is important thing to bring us around the world. Alongside that you can your reading ability was fluently. A reserve Thyroid Ultrasound and Ultrasound-Guided FNA Biopsy will make you to possibly be smarter. You can feel much more confidence if you can know about every thing. But some of you think this open or reading a book make you bored. It is not make you fun. Why they might be thought like that? Have you seeking best book or appropriate book with you?

Alexander Ray:

As we know that book is significant thing to add our information for everything. By a guide we can know everything we would like. A book is a pair of written, printed, illustrated as well as blank sheet. Every year had been exactly added. This e-book Thyroid Ultrasound and Ultrasound-Guided FNA Biopsy was filled concerning science. Spend your free time to add your knowledge about your scientific disciplines competence. Some people has diverse feel when they reading any book. If you know how big good thing about a book, you can really feel enjoy to read a book. In the modern era like today, many ways to get book which you wanted.

Susan Negri:

Reading a publication make you to get more knowledge from this. You can take knowledge and information from the book. Book is written or printed or descriptive from each source that filled update of news. With this modern era like at this point, many ways to get information are available for a person. From media social similar to newspaper, magazines, science book, encyclopedia, reference book, story and comic. You can add your knowledge by that book. Do you want to spend your spare time to open your book? Or just looking for the Thyroid Ultrasound and Ultrasound-Guided FNA Biopsy when you needed it?
