Written and edited by expert geriatric psychiatrists, emergency psychiatrists, consultation/liaison psychiatrists, geriatricians, and other multidisciplinary specialists, this is the first handbook devoted to on-call geriatric psychiatry. Chapters contain an important summary of key points for managing clinical situations, case studies, and reflective questions. This text brings together relevant principles of on-call geriatric psychiatry provided in clinical settings such as emergency, acute and subacute inpatient, outpatient, residential, correctional, and consultation/liaison. It includes clinical topics such as psychopharmacology, psychotherapy, substance abuse, and includes coverage of medical ethics and the law, utilization of contemporary technology, and administrative and public health policy.

The *On-Call Geriatric Psychiatry Handbook* is the first practical guide to knit together evidence-based medicine and geriatric psychiatry principles and practice guidelines and is a valuable resource for trainees, psychiatrists, geriatricians, emergency department and nursing home physicians and other health professionals working with older adult patients.
