Microchip Murder - A Katla KillFile (Amsterdam Assassin Series) Martyn V. Halm

Assassin Katla has to kill an industrial spy and retrieve the stolen item...

The Microchip Murder KillFile (8,600 words) follows freelance assassin Katla Sieltjes executing a contract on an industrial spy, who is in the process of selling a stolen microchip with valuable software to the competition. Katla's client wants the stolen microchip and research materials returned to him, but her target is wary and the unscrupulous buyers are prepared to kill for the stolen software.

The Katla KillFile short stories chronologically precede the novels in the Amsterdam Assassin Series.

Each KillFile features Katla Sieltjes, expert in disguising homicide, executing one of her contracts. While not mandatory reading, each KillFile provides insight both in Katla's work methods and skill, and additional background information in her character and personal history.
