A Developmental Approach to Educating Young Children (Classroom Insights from Educational Psychology)

Launch young learners on positive pathways through school!

The first in the *Classroom Insights From Educational Psychology* series, this book gives PreK–3 teachers valuable insight into how current research and theory from educational psychology can be applied to create a child-centered learning environment. Through vignettes, practice exercises, games, and reflection questions, readers gain a deeper understanding of:

- How children develop from the early years to middle childhood
- The importance of fostering positive teacher-child, child-child, and caregiver-child relationships
- Developmentally appropriate classroom practices that foster learning
- Children’s experiences with technology and outdoor environments
