Upgrading the Operating System of the Soul: A Manual of Quantum Sufism Donald E. Weiner

Each soul enables a unique means of knowledge and evolution, not only for our self but also for the unique aspect of the divine being with which each of us has a never-ending relationship. This book describes methods of spiritual transformation integrating wisdom from Sufism, including the teachings of Ibn Arabi, Hazrat Inayat Khan, and Pir Vilayat Inayat Khan with findings from modern science. Spirituality is presented as more than a vertical relationship with God. As we awaken to our potentialities, the purpose of life shifts to a process of consciously participating in the ongoing creation and evolution of the One Being that we are each part of.

This book by Don Weiner, so filled with love and many manifestations of mature soul consciousness, was a thorough delight to read. This is a wonderful pioneering exploration of the vast, unseen realms of that larger reality within which our own physical reality, spacetime, is comfortably nested. For the human species to expand its perspective of nature and ultimately fashion a workable and reliable science of these little understood realms, works such as this one need to be broadly read and treasured.

- William A. Tiller, Ph.D., Stanford University Professor Emeritus

With the acumen of a scientist and the intuition of a mystic, Don Weiner guides the reader through myriad, seldom perceived realms of mystery and grace.

- Pirzade Zia Inayat-Khan
